## ABOUT VISION WOOD

Sourced and manufactured within North America, Vision Wood offers a premiere selection of thermally modified wood products for all of your outdoor and indoor projects. Thermally treated wood thoroughly alters the cellular structure of the lumber, creating a high-quality, vibrant material built to perform in the harshest of climates.

Sustainability, durability, innovative technology – several of our core tenets in bringing to market a product that delivers exotic appeal with only the natural elements of heat, steam, and time. With performance and quality in mind, we aim to provide generational wood for all design concepts.

## OUR PLANET MATTERS

Vision Wood was built on 30 years of traveling the world to find the finest materials on the cutting edge of performance. Our clients—the developers, architects, designers and homeowners—consistently rely on our team to provide the highest quality components to achieve a project worthy of the admiration it deserves.

All of our partners are leaders in their respective industries for environmental responsibility and carbon compliance. With sustainability being another core belief, Vision Wood only engages in partnerships with companies that manage forests responsibly by promoting their growth and protection for future generations. The products we offer have no added urea formaldehyde and low volatile organic compounds. All of Vision Wood materials are sustainably forested.
