ABOUT VISION WOOD

Vision Wood's Golvabia Collection is one of the most technologically advanced wood floors available on the market. It consists of a real wood architectural veneer on a very strong HDF core. This smart floor has all the wonderful properties that only a real wood floor can provide and is available in many different species, colors, and patterns.

Lightwood is the most technologically advanced floor with all the wonderful properties that only real wood floors possess: warm, beautiful and with the variation in character that nature offers. The thinner wood layer is constructed using a modern technique to enhance the strength and spare natural resources. This way, you get as much floor as possible from one single tree.

Lightwood is available in many different types of wood and patterns. The slightly structured surface enhances the natural feel of the wood and is a treat for your feet. All our wood flooring has a state of the art matte UV Cured finish, unless otherwise stated.

TECHNICAL SPECIFICATION

Lightwood Plank

Grade	Prime or Light Rustic
Cut	Live Sawn/French Cut
Thickness	5/16" (7.5mm)
Width	5 5/8" (145mm)
Length	47" (1190mm)
Construction	.6mm Real Wood Veneer 6.7mm High Density Fiberboard 140g Impregnated Paper
Colors	6 Colors Available
Finish	UV Coating with Topguard Protection
Edges	4 Sides Micro-Beveled .8mm
Janka Hardness	3450
Installation	Floating 5G Click System or Glue Down

OUR PLANET MATTERS

Vision Wood was built on 30 years of traveling the world to find the finest materials on the cutting edge of performance. Our clients—the developers, architects, designers and homeowners—consistently rely on our team to provide the highest quality components to achieve a project worthy of the admiration it deserves.

All of our partners are leaders in their respective industries for environmental responsibility and carbon compliance. With sustainability being another core belief, Vision Wood only engages in partnerships with companies that manage forests responsibly by promoting their growth and protection for future generations. The products we offer have no added urea formaldehyde and low volatile organic compounds. All of Vision Wood materials are sustainably forested.
